Items Available For Immediate Shipment

New Catalog Now Available

As part of the economic stimulus package we are happy to announce the availability of the **new Auveco catalog**. Based on customer input towards improving it, we endeavor to make our catalog the **best in the business**. When it comes to automotive body hardware and specialty fasteners, we want the world to think of Auveco first and foremost. The prime directive throughout the company is to make the catalog the most complete and comprehensive tool possible for our customers and their customers. Here are **some of the enhancements that we have implemented**:

- * **All retainers** (trim panel, hood insulation, etc.) regardless of whether they have domestic or import car applications, **are now listed in the retainer section (pages 359 – 389)**. Previously, import car retainers were only listed in the respective Honda, Toyota, etc. sections. While still cataloged there, we felt it important to group all retainers together.
- * We also **expanded the Retainer Specification Chart (pages 390 – 397)** to be more inclusive.
- * We made a sizeable investment in time and resources in providing better graphics by **replacing numerous line drawings with actual photographs of the parts**. That will make it that much easier to identify items.
- * We reviewed the contents of **all the assortments in the green pages** and where appropriate, we **revised the contents to contain the most popular product**.

The second page of this fax is a **Catalog Order Form** which you can fax to 1-800-552-8197 to order your copies (including the **ECAT electronic version**) of the catalog. There is also a section on the Order Form where you can include your **Comments, Suggestions, New Item Requests**, etc. **Here is your chance to let us know what we can do to help you grow your business**. Your responses and opinions are important and we appreciate the time and effort you take to express them.

An up-to-date **list of Discontinued Items** (along with functional replacement information) is **available on the www.auveco.com web site**.

The current prices in our April 29, 2006 price book are still in effect.

If you prefer not to receive HNI fax bulletins, please call 1-800-354-9816 ext. 162. Please have your customer ID number and fax number ready.
