CCC Pathways Estimating System Uses Auveco Fasteners

Auveco is pleased to announce that **CCC Pathways estimating system users now have the option of selecting Auveco aftermarket fasteners when creating an estimate.** CCC users now have the ability to have Auveco fasteners approved on an estimate, eliminating the need to create a supplement.

This presents a great advantage to the Auveco Distributor, as his CCC Pathways body shop customer, now has access to nearly 5,000 high quality Auveco clips and fasteners with OEM listings. Auveco offers the world's largest selection of Body Hardware and Specialty Fasteners to the Automotive and PBE markets. Auveco is always on the leading edge of introducing new clips and fasteners as the market changes. No one can offer better coverage, at a better value, with better personal service than the Auveco Distributor. The integration of these benefits within the market-leading CCC Pathways system is a combination that cannot be beat.

For additional information, visit www.auveco.com or contact Mike Abrams at (800) 354-9816 x103.
